

RFID HARD TAG HT08g

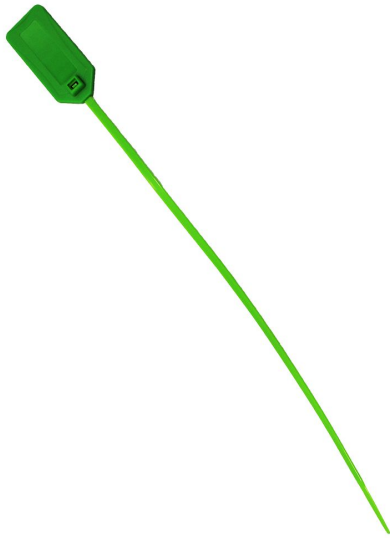

MARKETS:

Industry

Logistics

COLOUR:

Green

HT08g is an RFID hard tag with a unique ID – to which further information can be added – made from **ABS**, a material that is resistant to impact, shock and temperature fluctuations.

This **lanyard RFID hard tag** measures **345 x 28 x 5 mm** and weighs 8.5 grams.

The HT08g is available in green, with European and US UHF frequencies and a **Monza R6P chip**, and can be customised using laser engraving.

MARKETS

Thanks to its IP68 rating, the HT08g is waterproof and dustproof and can be used for **asset tracking in logistics and for the identification of farm animals**.

European frequency (EU) 868 MHz - US frequency 920 MHz

RFID features

Chip	Memory	ISO Standard
MONZA R6P	8 bytes - TID: 12 bytes - EPC: 16 bytes	ISO 18000-63 / EPC Gen 2 V2
MONZA R6P US	8 bytes - TID: 12 bytes - EPC: 16 bytes	ISO 18000-63 / EPC Gen 2 V2

Technical specifications

Application	Non-metal surfaces
IP rating	68
Dimensions	345 x 28 x 5 mm
Material	ABS
Weight	8,5 g
Application method	Lanyard
Operating and storage temperature	-40°C ~ +60°C

Customisation

Colour	Green
Type of printing and numbering	Laser technology
